- Unable to walk from home to the nearest bus stop.
- Unable to negotiate stairs or ramps.
- Unable to board or alight from a bus.

Examples of Neurological Related Disabilities

Cerebral palsy, mental disability, dementia or conditions of a similar nature,

- Unable to understand and follow transit directions (does not include foreign language difficulties).
- Easily confused or disoriented so that the person is unlikely to travel to intended destination on public transit.

Example of Sensory Related Disability

Vision impairment,

- Unable to use public transit because of vision impairment.

Examples of Medical Condition

Heart conditions, respiratory problems, epilepsy of a nature not easily controlled by drugs, or conditions of a similar nature,

- A diagnosed medical condition that does not allow travel on a conventional bus.
- A diagnosed medical condition that does not allow movement from a residence to the nearest bus stop.

HandyDART Service Guidelines

HandyDART is door-to-door, public transit service, which uses specially equipped vehicles designed to carry passengers with disability. TransLink's HandyDART service facilitates trips within the Metro Vancouver region only. The visitor's temporary address must also exist within the Metro Vancouver Service Region. For pick up or drop off at major transportation hubs (airports, ferry docks, passenger ship terminus), it is recommended that you use accessible taxis or the conventional transit system. Trips must be booked by noon the previous day of travel. HandyDART vehicles operate from 6 am to midnight, seven days a week.
